Innovative Portfolios, LLC

Indianapolis, IN

The Securities and Exchange Commission has not approved or disapproved these securities or determined if this Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website www.innovativeportfolios.com, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by following the instructions included with paper Fund documents that have been mailed to you. You may also elect to receive all future reports in paper free of charge.

DIVIDEND PERFORMERS SUMMARY

INVESTMENT OBJECTIVE:

The Dividend Performers (the “Fund”) investment objective is to seek to provide income. The Fund’s secondary objective is capital appreciation.

The Fund may change its investment objectives without shareholder approval, although it has no current intention to do so. Shareholders will be provided with at least 60 days’ prior written notice of any change to the Fund’s investment objectives.

FEES AND EXPENSES OF THE FUND:

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	Class I	Class A
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	None	None
Maximum Deferred Sales Charge (Load) (as a % of original purchase price)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None
Redemption Fee (as a % of amount redeemed, if sold within 60 days)	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Class I	Class A
Management Fees	1.00%	1.00%
Distribution and/or Service (12b-1) Fees	0.00%	0.25%
Other Expenses ⁽¹⁾	2.28%	2.35%
Total Annual Fund Operating Expenses	3.28%	3.60%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	1.78%	1.85%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.50%	1.75%

(1) Estimated for the initial fiscal period.

(2) The Fund’s Adviser (defined below) has contractually agreed to reduce its fees and to reimburse expenses, at least through May 31, 2020, to ensure that total annual Fund operating expenses after fee waiver and reimbursement (exclusive of any acquired fund fees and expenses, interest expenses, dividend expenses on short sales, taxes, brokerage commissions, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation) will not exceed 1.50% and 1.75% of the average daily net assets attributable to the Class I and Class A shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund within three years of the date on which the waiver or reimbursement occurs, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recoupment. This agreement may be terminated only by the Fund’s Board of Trustees, on 60 days written notice to the Fund’s Adviser.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same as those reflected in the above fee table. The Example assumes the impact of the fee waiver in 1 Year example. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years
Class I	\$153	\$843
Class A	\$178	\$932

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual operating expenses or in the Example, affect the Fund's performance.

PRINCIPAL INVESTMENT STRATEGY:

The Fund's investment strategy is twofold: (1) investing in dividend paying U.S. equity securities, and (2) credit spread options on the S&P 500 Index; both of which are described in detail below.

Dividend Investment Strategy

The Fund will invest in common stocks of dividend paying U.S. companies. The Fund invests, generally, in large capitalization companies (\$10 billion or higher) but has the ability to invest in income-producing equity securities of all capitalizations with ten years of rising dividend payments. The Fund may also invest in publicly traded partnerships ("PTPs") and real estate investment trusts ("REITs").

The Fund's Adviser, Innovative Portfolios, LLC (the "Adviser"), will invest the Fund's assets in companies that have a ten-year history of paying dividends, appear to have the ability to continue to pay dividends, have a history of increasing their dividends, and meet certain risk standards (as discussed in more detail below). The Adviser will generally sell a security if the security is no longer expected to meet the Adviser's dividend or growth expectations or if the risk characteristics place the equity in higher risk deciles.

The selection of dividend-paying stocks is based on the universe of companies based in the U.S. with a history of increasing dividends for 10 consecutive years (Dividend Achievers). That list is further sorted by the companies with the best downside risk (lowest) characteristics. Historically, the companies with lower downside risk scores have potential for long-term growth and have exhibited lower volatility and lower downside risk. The downside risk score utilizes a fundamental value approach, evaluating the security on certain factors (e.g., free cash-flow, revenue stability, profitability changes and trend, leverage, stock price volatility and correlation, and earning surprise persistency). These variables are used to evaluate downside risk on the securities meaning the risk of the stock versus the potential return, with the objective to avoid downside risk. The portfolio is periodically rebalanced where companies with higher risk characteristics are exchanged for companies with lower risk characteristics.

S&P 500 Index Options Strategy

The Fund may expose up to 20% of its assets to a credit spread options strategy however market conditions may dictate additional exposure. The Fund seeks to achieve a credit spread on the S&P 500 Index investment objective by selling/writing an out-of-the-money (an out-of-the-money put option is one whose strike price is lower than the market price of the underlying reference asset of the option) short put option each month while simultaneously purchasing an out-of-the-money long put option below the short option position. A credit spread is an options strategy that involves the purchase of one option and a sale of another option in the same class and expiration but different strike prices. Such a strategy results in a net credit for entering the option position, and wants the spreads to narrow or expire for profit. Buying the protective long put option is hedging any significant downside risk posed by the short put option by employing a defensive position.

The short option premium" is derived from "implied volatility" — the expected level of volatility priced into an option — and is higher, on average, than the volatility actually experienced on the security underlying the option. For example, an option buyer typically pays a premium to an option seller, such as the Fund, that is priced based on the expected amount by which the value of the instrument underlying the option will move up or down. On average, this expected amount of value movement (or implied volatility) is generally greater than the amount by which the value of the underlying instrument actually moves (realized volatility). By entering into derivatives contracts, the Fund is, in essence, accepting a risk that its counterparty seeks to transfer in exchange for the premium received by the Fund under the derivatives contract. By providing this risk transfer service, the Fund seeks to benefit over the long-term from the difference between the level of volatility priced into the options it sells and the level of volatility realized on the securities underlying those options. There can be no assurance that the variance risk premium will be positive for the Fund's investments at any time or on average and over time.

The premium paid for a long put option is typically priced based on the expected amount by which the value of the instrument underlying the option will move up or down. On average, this expected amount of value movement (or implied volatility) is generally greater than the amount by which the value of the underlying instrument actually moves (realized volatility). By entering into this derivative contract, the Fund is, in essence, transferring a risk that its counterparty seeks to accept in exchange for the premium received by the counterparty under the derivatives contract. By transferring this risk to a counterparty, the Fund seeks to benefit over the long-term from the difference in premium collected on the short put option premium above and the long option premium paid herein. There can be no assurance that the variance risk premium will be positive for the Fund's investments at any time or on average and over time.

A put option typically gives the option buyer the right to sell, and obligates the option seller to purchase, a security at an agreed-upon price. Generally, the Fund intends to sell put options that are out-of-the-money. Options that are more substantially out-of-the-money generally would pay lower premiums than options that are at or slightly out-of-the-money. By selling put options, the Fund will sell protection against depreciation below the option exercise price to the option purchaser in exchange for an option premium. If an option is exercised, the Fund will either purchase or sell the security at the strike price or pay to the option holder the difference between the strike price and the current price level of the underlying equity security, ETF or index, depending on the terms of the option.

When the Fund enters into derivatives transactions, it is typically required to post collateral, or "initial margin," to secure its payment or delivery obligations.

The Fund's will invest as indicated above in common stocks of dividend paying companies. These securities will be used to meet asset coverage or margin requirements on the Fund's option writing strategy. The Fund may write put options in respect of an underlying security in which the Fund does not have a short position (so-called "naked" call or put options). The Fund may hold positions in equities and ETFs to the extent necessary to meet asset coverage or margin requirements. Generally, the investment goal is to write options with a target of 20% spread notional exposure however market conditions may dictate more notional exposure. The Fund may be considered to have created investment leverage; leverage increases the volatility of the Fund and may result in losses greater than if the Fund had not been leveraged.

PRINCIPAL INVESTMENT RISKS:

As with all mutual funds, there is risk that you could lose money through your investment in the Fund. Investing in the Fund can result in a loss of some or all amounts invested.

Investment Risk: You could lose money by investing in the Fund. An investment in the Fund is not a deposit to a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Market Risk: The shareholder's investment in Fund shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other investments may increase or decrease. The Fund shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Equity Risk: Equity security values held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of the securities participate or other factors relating to the companies.

Dividend-Paying Security Risk: The Fund's investment in dividend-paying stocks could cause the Fund to underperform similar funds that invest without consideration of a company's track record of paying dividends. Stocks of companies with a history of paying dividends may not participate in a broad market advance to the same degree as most other stocks, and a sharp rise in interest rates or economic downturn could cause a company to unexpectedly reduce or eliminate its dividend.

Real Estate Industry Risk: Investments in the Fund may be subject to many of the same risks as a direct investment in real estate. The stock prices of companies in the real estate industry, including REITs, are typically sensitive to changes in real estate values, property taxes, interest rates, cash flow of underlying real estate assets, occupancy rates, government regulations affecting zoning, land use, and rents, as well as the management skill and creditworthiness of the issuer. REITs also depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders and are subject to the risk of failing to qualify for favorable tax treatment under the Internal Revenue Code of 1986, as amended.

Large-Capitalization Risk: Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion.

Small- and Mid-Capitalization Stock Risk: The stocks of small- and mid-capitalization companies often have greater price volatility, lower trading volume, and less liquidity than the stocks of larger, more established companies.

PTP Risk: Investing in PTPs (including master limited partnerships) involves special risks in addition to those typically associated with publicly traded companies. PTPs are exposed to the risks of their underlying assets, which in many cases includes the same types of risks as energy and natural resources companies, such as commodity pricing risk, supply and demand risk and depletion and exploration risk. PTPs are also subject to capital markets risk, which is the risk that they may be unable to raise capital to execute their growth strategies. PTPs are also subject to tax risk, which is the risk that PTPs may lose their partnership status for tax purposes. The Fund's ability to make investments in certain PTPs, including master limited partnerships, can be limited by the Fund's intention to qualify as a regulated investment company, and if the Fund does not appropriately limit such investments or if such investments are re-characterized for U.S. federal income tax purposes, the Fund's status as a regulated investment company may be jeopardized.

Sector Risk: Issuers and companies that are in similar industry sectors may be similarly affected by particular economic or market events; to the extent the Fund has substantial holdings within a particular sector, the risks associated with that sector increase. Stocks in the consumer discretionary, industrials and financials sectors may comprise a significant portion of the Fund's portfolio. The consumer discretionary sector may be affected by the performance of the overall economy, consumer confidence and spending, changes in demographic and consumer tastes,

interest rates, and competitive pressures. The industrials sector may be affected by general economic trends, including employment, economic growth and interest rates, changes in consumer confidence and spending, government regulation, commodity prices and competitive pressures. Unique risks of the financial sector include, but are not limited to, government regulation uncertainty, yield curve fluctuation, asset flow fluctuation, and capital market fluctuations.

Option Risk: Changes in the market price or other economic attributes of the underlying investment, changes in the realized or perceived volatility of the relevant market and underlying investment and time remaining before an option's expiration affect the market price of options.

If the market for the options becomes less liquid or smaller the market price of the options may be adversely affected. The Fund may close out a written option position by buying the option instead of letting it expire or be exercised. The Fund may close out of long options by selling instead of letting it expire or be exercised. There can be no assurance that a liquid market will exist when the Fund seeks to close out an option position by buying or selling the option.

When the Fund writes (sells) an option, it faces the risk that it will experience a loss if the option purchaser exercises the option sold by the Fund. Writing options can cause the Fund's share price to be highly volatile, and it may be subject to sudden and substantial losses.

The Fund's options positions will be marked to market on each day that the Fund strikes its NAV. The Fund's options transactions will be subject to limitations established by each of the exchanges, boards of trade or other trading facilities on which such options are traded. These limitations govern the maximum number of options in each class that may be written or purchased by a single investor or group of investors acting in concert, regardless of whether the options are written or purchased on the same or different exchanges, boards of trade or other trading facilities or are held or written in one or more accounts or through one or more brokers.

The decision on when and how to use options involves the exercise of skill and judgement. Market behavior or unexpected events can adversely affect a well-executed options program. Anticipation of future movements in securities prices or other economic factors of the underlying investments impact the success of an option strategy. No assurances on the Adviser's judgement being correct can be given.

Leverage Risk: The Fund may be subject to leverage risk through the use of options. Leverage magnifies the Fund's exposure to declines in the value of one or more underlying investments or creates investment risk with respect to a larger pool of assets than the Fund would otherwise have and may be considered a speculative technique. The value of an investment in the Fund will be more volatile and other risks tend to be compounded if and to the extent that the Fund uses derivatives or other investments that have embedded leverage. Engaging in such transactions may cause the Fund to liquidate positions when it may not be advantageous to do so to satisfy its obligations or to meet segregation requirements.

Management Risk: The Fund is an actively managed portfolio. The Adviser will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that the Fund will achieve its investment objective. The Adviser may fail to use derivatives effectively or may select investments that do not perform as anticipated by the Adviser. Imperfections, errors or limitations in quantitative analyses and models used by the Adviser as part of its investment process could affect the Fund's performance. The Fund could lose value or its investment results could lag relevant benchmarks or other funds with similar objectives. The Adviser does not have any experience in implementing the Fund's strategy for a mutual fund.

PERFORMANCE:

Because the Fund has less than a full calendar year of investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of the Prospectus. Also, shareholder reports containing financial and performance information will be mailed to shareholders semi-annually. Updated performance information will be available at no cost by calling 1-800-869-1679 and may also be available at www.innovativeportfolios.com.

INVESTMENT ADVISER:

Innovative Portfolios, LLC

PORTFOLIO MANAGER:

Dave Gilreath, CFP®, Managing Director & Chief Investment Officer

Mr. Gilreath attended Miami University in Oxford, Ohio, where he earned a Bachelor of Science degree. Mr. Gilreath has earned his Certified Financial Planner® (CFP) credential. He is a founding principal and Chief Investment Officer for the Adviser and Sheaff Brock Investment Advisors, LLC (SBIA). SBIA, an affiliate of the Adviser, is a SEC registered investment advisor. As Chief Investment Officer, Mr. Gilreath, shares responsibility for setting investment policy, asset allocation, and security selection for the Adviser. He has more than 30 years of experience in the financial services industry, beginning with Bache Halsey Stuart Shields and later with Morgan Stanley/Dean Witter. Mr. Gilreath has been with the Adviser since 2015 and SBIA since 2001.

Ron Brock, Managing Director

Mr. Brock attended the Indiana University School of Business, where he earned a Bachelor of Science degree in accounting. He is a founding principal and Managing Director for the Adviser and Sheaff Brock Investment Advisors (SBIA). SBIA, an affiliate of the Adviser, is a SEC registered investment advisor. Mr. Brock shares responsibility for setting investment policy, asset allocation, and security selection for the Adviser. He has more than 30 years of experience in the financial services industry, starting with Prudential Bache Securities and also working with Morgan Stanley/Dean Witter. Mr. Brock has been with the Adviser since 2015 and SBIA since 2001.

Each portfolio manager is jointly and primarily responsible for the day-to-day management of the Fund.

PURCHASE AND SALE OF FUND SHARES:

You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. You may redeem shares by written request, telephone or through a financial intermediary.

Class A: \$5,000 initial; \$100 subsequent investments;
Retirement Plans \$1,000 initial; \$250 subsequent investments

Class I: \$100,000 initial; \$100 subsequent investments;
Retirement Plans \$100,000; \$250 subsequent investments

However, the Fund or the adviser may waive any minimum investment requirement at its discretion.

TAX INFORMATION:

Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, such distributions may be taxed later upon withdrawal of monies from the plan.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES:

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND'S PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS**INVESTMENT OBJECTIVES:**

The Fund's primary investment objective is to seek to provide income. The Fund's secondary objective is capital appreciation.

The Fund may change its investment objectives without shareholder approval, although it has no current intention to do so. Shareholders will be provided with at least 60 days' prior written notice of any change to the Fund's investment objectives.

PRINCIPAL INVESTMENT STRATEGIES:

The Fund's investment strategy is twofold: (1) dividend paying U.S. equity securities, and (2) credit spread options on the S&P 500 Index; both of which are described in detail below.

Dividend Investment Strategy

The Fund will invest in common stocks of dividend paying U.S. companies. The Fund invests, generally, in large capitalization companies (\$10 billion or higher) but has the ability to invest in income-producing equity securities of all capitalizations with ten years of rising dividend payments. The Fund may also invest in publicly traded partnerships ("PTPs") and real estate investment trusts ("REITs").

The Fund's Adviser, Innovative Portfolios, LLC, will invest the Fund's assets in companies that have a ten-year history of paying dividends, appear to have the ability to continue to pay dividends, have a history of increasing their dividends, and meet certain risk standards (as discussed in more detail below). The Adviser will generally sell a security if the security is no longer expected to meet the Adviser's dividend or growth expectations or if the risk characteristics place the equity in higher risk deciles.

The selection of dividend-paying stocks is based on the universe of companies based in the U.S. with a history of increasing dividends for 10 consecutive years (Dividend Achievers). That list is further sorted by the companies with the best downside risk (lowest) characteristics. Historically, the companies with lower downside risk scores have potential for long-term growth and have exhibited lower volatility and lower downside risk. The downside risk score utilizes a fundamental value approach, evaluating the security on certain factors (e.g., free cash-flow, revenue stability, profitability changes and trend, leverage, stock price volatility and correlation, and earning surprise persistency). These variables are used to evaluate downside risk on the securities meaning the risk of the stock versus the potential return, with the objective to avoid downside risk. The portfolio is periodically rebalanced where companies with higher risk characteristics are exchanged for companies with lower risk characteristics.

S&P 500 Index Options Strategy

The Fund may expose up to 20% of its assets to a credit spread options strategy however market conditions may dictate additional exposure. The Fund seeks to achieve a credit spread on the S&P 500 Index investment objective by selling/writing an out-of-the-money short put option each month while simultaneously purchasing an out-of-the-money long put option below the short option position. A credit spread is an options strategy that involves the purchase of one option and a sale of another option in the same class and expiration but different strike prices. Such a strategy results in a net credit for entering the option position, and wants the spreads to narrow or expire for profit. Buying the protective long put option is hedging any significant downside risk posed by the short put option by employing a defensive position.

The short option premium" is derived from "implied volatility" — the expected level of volatility priced into an option — and is higher, on average, than the volatility actually experienced on the security underlying the option. For example, an option buyer typically pays a premium to an option seller, such as the Fund, that is priced based on the expected amount by which the value of the instrument underlying the option will move up or down. On average, this expected amount of value movement (or implied volatility) is generally greater than the amount by which the value of the underlying instrument actually moves (realized volatility). By entering into derivatives contracts, the Fund is, in essence, accepting a risk that its counterparty seeks to transfer in exchange for the premium received by the Fund under the derivatives contract. By providing this risk transfer service, the Fund seeks to benefit over the long-term from the difference between the level of volatility priced into the options it sells and the level of volatility realized on the securities underlying those options. There can be no assurance that the variance risk premium will be positive for the Fund's investments at any time or on average and over time.

The premium paid for a long put option is typically priced based on the expected amount by which the value of the instrument underlying the option will move up or down. On average, this expected amount of value movement (or implied volatility) is generally greater than the amount by which the value of the underlying instrument actually moves (realized volatility). By entering into this derivative contract, the Fund is, in essence, transferring a risk that its counterparty seeks to accept in exchange for the premium received by the counterparty under the derivatives contract. By transferring this risk to a counterparty, the Fund seeks to benefit over the long-term from the difference in premium collected on the short put option premium above and the long option premium paid herein. There can be no assurance that the variance risk premium will be positive for the Fund's investments at any time or on average and over time.

A put option typically gives the option buyer the right to sell, and obligates the option seller to purchase, a security at an agreed-upon price. Generally, the Fund intends to sell put options that are out-of-the-money. Options that are more substantially out-of-the-money generally would pay lower premiums than options that are at or slightly out-of-the-money. By selling put options, the Fund will sell protection against depreciation below the option exercise price to the option purchaser in exchange for an option premium. If an option is exercised, the Fund will either purchase or sell the security at the strike price or pay to the option holder the difference between the strike price and the current price level of the underlying equity security, ETF or index, depending on the terms of the option.

When the Fund enters into derivatives transactions, it is typically required to post collateral, or "initial margin," to secure its payment or delivery obligations.

The Fund's will invest as indicated above in common stocks of dividend paying companies. These securities will be used to meet asset coverage or margin requirements on the Fund's option writing strategy. The Fund may write put options in respect of an underlying security in which the Fund does not have a short position (so-called "naked" call or put options). The Fund may hold positions in equities and ETFs to the extent necessary to meet asset coverage or margin

requirements. Generally, the investment goal is to write options with a target of 20% spread notional exposure however market conditions may dictate more notional exposure. The Fund may be considered to have created investment leverage; leverage increases the volatility of the Fund and may result in losses greater than if the Fund had not been leveraged.

PRINCIPAL INVESTMENT RISKS:

Investment Risk: You could lose money by investing in the Fund. An investment in the Fund is not a deposit to a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Market Risk: The shareholder's investment in Fund shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other investments may increase or decrease. The Fund shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Real Estate Industry Risk: Investments in the Fund may be subject to many of the same risks as a direct investment in real estate. The stock prices of companies in the real estate industry, including REITs, are typically sensitive to changes in real estate values, property taxes, interest rates, cash flow of underlying real estate assets, occupancy rates, government regulations affecting zoning, land use, and rents, as well as the management skill and creditworthiness of the issuer. REITs also depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders and are subject to the risk of failing to qualify for favorable tax treatment under the Internal Revenue Code of 1986, as amended.

Large-Capitalization Risk: Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion.

Small- and Mid-Capitalization Stock Risk: The stocks of small- and mid-capitalization companies often have greater price volatility, lower trading volume, and less liquidity than the stocks of larger, more established companies.

Option Risk: Changes in the market price or other economic attributes of the underlying investment, changes in the realized or perceived volatility of the relevant market and underlying investment and time remaining before an option's expiration affect the market price of options.

If the market for the options becomes less liquid or smaller the market price of the options may be adversely affected. The Fund may close out a written option position by buying the option instead of letting it expire or be exercised. The Fund may close out of long options by selling instead of letting it expire or be exercised. There can be no assurance that a liquid market will exist when the Fund seeks to close out an option position by buying or selling the option.

When the Fund writes (sells) an option, it faces the risk that it will experience a loss if the option purchaser exercises the option sold by the Fund. Writing options can cause the Fund's share price to be highly volatile, and it may be subject to sudden and substantial losses.

The Fund's options positions will be marked to market on each day that the Fund strikes its NAV. The Fund's options transactions will be subject to limitations established by each of the exchanges, boards of trade or other trading facilities on which such options are traded. These limitations govern the maximum number of options in each class that may be written or purchased by a single investor or group of investors acting in concert, regardless of whether the options are written or purchased on the same or different exchanges, boards of trade or other trading facilities or are held or written in one or more accounts or through one or more brokers.

The decision on when and how to use options involves the exercise of skill and judgement. Market behavior or unexpected events can adversely affect a well-executed options program. Anticipation of future movements in securities prices or other economic factors of the underlying investments impact the success of an option strategy. No assurances on the Adviser's judgement being correct can be given.

Counterparty Risk: The Fund's use of OTC derivatives exposes it to the risk that the counterparties will be unable or unwilling to make timely settlement payments or otherwise honor their obligations. If the counterparty defaults, the Fund will still have contractual remedies but may not be able to enforce them. The Fund may invest in derivatives with a limited number of counterparties, and events affecting the creditworthiness of any of those counterparties may have a pronounced effect on the Fund.

Leverage Risk: The Fund may be subject to leverage risk through the use of derivative instruments. Leverage magnifies the Fund's exposure to declines in the value of one or more underlying investments or creates investment risk with respect to a larger pool of assets than the Fund would otherwise have and may be considered a speculative technique. The value of an investment in the Fund will be more volatile and other risks tend to be compounded if and to the extent that the Fund uses derivatives or other investments that have embedded leverage. Engaging in such transactions may cause the Fund to liquidate positions when it may not be advantageous to do so to satisfy its obligations or to meet segregation requirements.

Temporary Defensive and Interim Investments: In times of adverse or unstable market, economic or political conditions for temporary defensive purposes the Fund can invest up to 100% of its assets in investments that may be inconsistent with its principal investment strategies. Generally, the Fund would invest in money market instruments or in other short-term U.S. or non-U.S. government securities. The Fund might also hold these types of securities as interim investments pending the investment of proceeds from the sale of its shares or the sale of its portfolio securities or to meet anticipated redemptions of its shares. To the extent the Fund invests in these securities, it might not achieve its investment objective.

Cyber Security Risk: With the increase use of technologies such as the Internet and the dependence on computer systems to perform necessary business functions, the Fund and its service providers (including the Adviser) may be susceptible to operational and information security risks resulting from cyber-attacks and/or other technological malfunctions. In general, cyber-attacks are deliberate, but unintentional events may have similar effects. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorization, gaining unauthorized access to digital systems for purpose of misappropriation of assets and causing operational disruptions. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service. Successful cyber-attacks against, or security breakdowns of, the Fund, the Adviser, or custodian, transfer agent, or other affiliated or third-party service provider may adversely affect the Fund or its shareholders.

The Fund and the Adviser may have limited ability to prevent or mitigate cyber-attacks or security or technology breakdowns affecting the Fund's third-party service providers. While the Fund has established business continuity plans and systems designed to prevent or reduce the impact of cyber-attacks, such plans and systems are subject to inherent limitations.

Large Shareholder Risk: The Fund may have one or more large shareholders or a group of shareholders investing in classes of Fund shares indirectly through an account, platform or program sponsored by a financial institution. Investment and asset allocation decisions by such financial institutions regarding the account, platform or program through which multiple

shareholders invest may result in subscription and redemption decisions that have a significant impact on the assets, expenses and trading activities of the Fund. Such a decision may cause the Fund to sell assets (or invest cash) at disadvantageous times or prices, increase or accelerate taxable gains or transactions costs and may negatively affect the Fund's NAV, performance, or ability to satisfy redemptions in a timely manner.

Management Risk: The Fund is an actively managed portfolio. The Adviser will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that the Fund will achieve its investment objective. The Adviser may fail to use derivatives effectively or may select investments that do not perform as anticipated by the Adviser. Imperfections, errors or limitations in quantitative analyses and models used by the Adviser as part of its investment process could affect the Fund's performance. The Fund could lose value or its investment results could lag relevant benchmarks or other funds with similar objectives.

Operational Risk: The Fund is subject to the risk of loss as a result of other services provided by Adviser and other service providers, including pricing, administrative, accounting, tax, legal, custody, transfer agency and other services. The risk includes the possibility of loss caused by inadequate procedures and controls, human error and cyber-attacks.

TEMPORARY INVESTMENTS:

To respond to adverse market, economic, political or other conditions, each Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While a Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that either Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. Each Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

PORTFOLIO HOLDINGS DISCLOSURE:

A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information.

CYBERSECURITY:

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached.

The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach. Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate their NAV; impediments to trading; the inability of the Funds, the adviser, the sub-adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other

compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Funds invest; counterparties with which the Funds engage in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Funds' shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

INVESTMENT ADVISER:

Innovative Portfolios, LLC, (the "Adviser"), located at 8801 River Crossing Blvd. Suite 100, Indianapolis, IN, 46240 serves as investment adviser to the Funds. Subject to the authority of the Board of Trustees, IP is responsible for the overall management of the Fund's investment portfolio. The Adviser is an Indiana limited liability company formed in 2015 to provide investment advisory services to individual clients. The Fund is not the Adviser's only client.

Pursuant to a management agreement (the "Management Agreement"), the Fund pays the Adviser, on a monthly basis, an annual advisory fee equivalent to 1.00% of the Fund's average daily net assets. The Adviser has contractually agreed to reduce its fees and to reimburse expenses, at least through May 31, 2020 to ensure that total annual Fund operating expenses after fee waiver and reimbursement (acquired fund fees and expenses, interest expenses, dividend expenses on short sales, taxes, brokerage commissions, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation) will not exceed 1.50% for Class I and 1.75% for Class A of the average daily net assets for each respective Class of the Fund. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund within three years after the date on which the waiver or reimbursement occurs, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recoupment. This agreement may be terminated only by the Fund's Board of Trustees, on 60 days' written notice to Adviser. Fee waiver and reimbursement arrangements can decrease the Fund's expenses and boost its performance. A discussion regarding the basis for the Board of Trustees' approval of the Management Agreement will be available in the Fund's first annual or semi-annual report to shareholders.

PORTFOLIO MANAGERS:

Dave Gilreath, CFP®, Managing Director & Chief Investment Officer

Mr. Gilreath attended Miami University in Oxford, Ohio, where he earned a Bachelor of Science degree. Mr. Gilreath has earned his Certified Financial Planner® (CFP) credential. He is a founding principal and Chief Investment Officer for the Adviser and Sheaff Brock Investment Advisors, LLC (SBIA). SBIA, an affiliate of the Adviser, is a SEC registered investment advisor. As Chief Investment Officer, Mr. Gilreath, shares responsibility for setting investment policy, asset allocation, and security selection for the Adviser. He has more than 30 years of experience in the financial services industry, beginning with Bache Halsey Stuart Shields and later with Morgan Stanley/Dean Witter. Mr. Gilreath has been with the Adviser since 2015 and SBIA since 2001.

Ron Brock, Managing Director

Mr. Brock attended the Indiana University School of Business, where he earned a Bachelor of Science degree in accounting. He is a founding principal and Managing Director for the Adviser

and Sheaff Brock Investment Advisors (SBIA). SBIA, an affiliate of the Adviser, is a SEC registered investment advisor. Mr. Brock shares responsibility for setting investment policy, asset allocation, and security selection for the Adviser. He has more than 30 years of experience in the financial services industry, starting with Prudential Bache Securities and also working with Morgan Stanley/Dean Witter. Mr. Brock has been with the Adviser since 2015 and SBIA since 2001.

The Fund's Statement of Additional Information provides additional information about the Portfolio Managers' compensation structure, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares of the Fund.

HOW SHARES ARE PRICED

The Fund's assets are generally valued at their market value using market quotations. The Fund may use pricing services to determine market value. If market prices are not available or, in the Adviser's opinion, market prices do not reflect fair value, or if an event occurs after the close of trading on the domestic or foreign exchange or market on which the security is principally traded (but prior to the time the NAV is calculated) that materially affects fair value, the investment Adviser will value the Fund's assets at their fair value according to policies approved by the Fund's Board of Trustees. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the adviser may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short term traders could take advantage of the arbitrage opportunity and dilute the NAV of long term investors. Securities trading on overseas markets present time zone arbitrage opportunities when events affecting portfolio security values occur after the close of the overseas market, but prior to the close of the U.S. market. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short term traders, but there is no assurance that fair value pricing policies will prevent dilution of a Fund's NAV by short term traders. Fair valuation involves subjective judgments and it is possible that the fair value determined for a security may differ materially from the value that could be realized upon the sale of the security. The Fund may invest in ETFs and other investment companies ("Underlying Funds"). The Fund's NAV is calculated based, in part, upon the market prices of the Underlying Funds in its portfolio, and the prospectuses of those companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. Because foreign securities trade on days when the Fund's shares are not priced, the value of securities held by the Fund can change on days when the Fund's shares cannot be purchased or redeemed.

HOW TO PURCHASE SHARES

Class I Shares

Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares are intended to be offered to institutional investors through select channels that are not available to all investors. However, the Fund or the Adviser may admit investors at its discretion and waive any minimum investment requirement.

Class A Shares

Class A shares of the Fund are sold at NAV without an initial sales charge and are subject to 12b-1 distribution fees. This means that 100% of your initial investment is placed into shares of the Fund. Class A shares are intended to be offered to retail investors through financial intermediaries.

MINIMUM INVESTMENTS:

The minimum initial and subsequent investment for Class I shares is \$100,000 and \$100 and Class A shares is \$5,000 and \$100 for all non-retirement accounts. The minimum initial and

subsequent investment for retirement accounts is \$1,000 and \$250. However, the Fund or the adviser may waive any minimum investment requirement at its discretion.

There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. Investment minimums may be higher or lower for investors purchasing shares through a brokerage firm or other financial institution. To the extent investments of individual investors are aggregated into an omnibus account established by an investment adviser, brokerage firm, retirement plan sponsor or other intermediary, the account minimums apply to the omnibus account, not to the account of the individual investor.

For accounts sold through brokerage firms and other intermediaries, it is the responsibility of the brokerage firm or intermediary to enforce compliance with investment minimums.

OPENING AN ACCOUNT:

The Fund is a separate series of Collaborative Investment Series Trust (the "Trust"), and you may purchase shares directly from the Fund. You also may purchase shares through a brokerage firm or other intermediary that has contracted with the Trust to sell shares of the Fund. You may be charged a separate fee by the brokerage firm or other intermediary through whom you purchase shares.

If you are investing directly in the Fund for the first time, please call the Fund's transfer agent at 1-800-869-1679 to request a Shareholder Account Application. You will need to establish an account before investing. Be sure to sign up for all the account options that you plan to take advantage of. For example, if you would like to be able to redeem your shares by telephone, you should select this option on your Shareholder Account Application. Doing so when you open your account means that you will not need to complete additional paperwork later.

Your investment in the Fund should be intended as a long-term investment vehicle. The Fund is not designed to provide you with a means of speculating on the short-term fluctuations in the stock market. The Fund reserve the right to reject any purchase request that it regards as disruptive to the efficient management of the Fund, which includes investors with a history of excessive trading. The Fund also reserves the right to stop offering shares at any time.

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that when you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We also may ask for other identifying documents or information, and may take additional steps to verify your identity. We may not be able to open your account or complete a transaction for you until we are able to verify your identity.

If you have any questions regarding the Fund, please call 1-800-869-1679.

You may buy shares on any "business day." Business days are Monday through Friday, other than days the New York Stock Exchange (NYSE) is closed, including the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas Day.

Shares of the Funds are sold at NAV. The NAV generally is calculated as of the close of trading on the NYSE every day the NYSE is open. The NYSE normally closes at 4:00 p.m. Eastern Time ("ET"). The Fund's NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent.

If you are purchasing directly from the Trust, send the completed Shareholder Account Application and a check payable to the Fund in which you are investing to the following address:

Collaborative Investment Series Trust
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

Purchase orders received in "proper form" by the Fund's transfer agent before the close of trading on the NYSE will be effective at the NAV next calculated after your order is received. On occasion, the NYSE closes before 4:00 p.m. ET. When that happens, purchase orders received after the NYSE closes will be effective the following business day.

To be in "proper form," the purchase order must include:

- Fund name and account number;
- Account name(s) and address;
- The dollar amount or number of shares you wish to purchase.

The Fund may limit the amount of purchases and refuse to sell to any person.

Method of Payment. All purchases (both initial and subsequent) must be made in U.S. dollars and checks must be drawn on U.S. banks. Cash, credit cards and third party checks will not be accepted. Third party checks and checks drawn on a non-U.S. financial institution will not be accepted, even if payment may be effected through a U.S. financial institution. Checks made payable to any individual or company and endorsed to Collaborative Investment Series Trust or the Fund are considered third-party checks.

A \$20 fee will be charged against your account for any payment check returned to the transfer agent or for any incomplete electronic funds transfer, or for insufficient funds, stop payment, closed account or other reasons. If a check does not clear your bank or the Fund is unable to debit your pre-designated bank account on the day of purchase, the Fund reserves the right to cancel the purchase. If your purchase is canceled, you will be responsible for any losses or fees imposed by your bank and losses that may be incurred as a result of a decline in the value of the canceled purchase. The Fund (or the Fund's agent) each have the authority to redeem shares in your account(s) to cover any losses due to fluctuations in share price. Any profit on such cancellation will accrue to the Fund.

If you choose to pay by wire, you must call the Fund's transfer agent, at 1-800-869-1679 to set up your account, to obtain an account number, and obtain instructions on how to complete the wire transfer.

Wire orders will be accepted only on a day on which the Fund, custodian and transfer agent are open for business. A wire purchase will not be considered made until the wired money and the purchase order are received by the Fund. Any delays that may occur in wiring money, including delays that may occur in processing by the banks, are not the responsibility of the Fund or its transfer agent. The Fund presently does not charge a fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

AUTOMATIC INVESTMENT PLANS:

By completing the Automatic Investment Plan section of the account application, you may make automatic monthly investments (\$100 minimum per purchase) from your bank or savings account.

OTHER PURCHASE INFORMATION:

If your wire does not clear, you will be responsible for any loss incurred by the Fund. If you are already a shareholder, the Fund can redeem shares from any identically registered account in the Fund as reimbursement for any loss incurred. You may be prohibited or restricted from making future purchases in the Fund.

The Fund may authorize certain brokerage firms and other intermediaries (including its designated correspondents) to accept purchase and redemption orders on its behalf. The Fund is deemed to have received an order when the authorized person or designee receives the order, and the order is processed at the NAV next calculated thereafter. It is the responsibility of the brokerage firm or other intermediary to transmit orders promptly to the Funds' transfer agent.

HOW TO REDEEM SHARES

REDEEMING SHARES:

You may redeem your shares on any business day. Redemption orders received in proper form by the Fund's transfer agent or by a brokerage firm or other intermediary selling Fund shares before 4:00 p.m. ET (or before the NYSE closes if the NYSE closes before 4:00 p.m. ET) will be processed at that day's NAV. Your brokerage firm or intermediary may have an earlier cut-off time.

"Proper form" means your request for redemption must:

- Include the Fund name and account number;
- Include the account name(s) and address;
- State the dollar amount or number of shares you wish to redeem; and
- Be signed by all registered share owner(s) in the exact name(s) and any special capacity in which they are registered.

The Fund may require that the signatures be guaranteed if the mailing address of the account has been changed within 30 days of the redemption request. The Fund also may require that signatures be guaranteed for redemptions of \$25,000 or more. Signature guarantees are for the protection of shareholders. You can obtain a signature guarantee from most banks and securities dealers, but not from a notary public. All documentation requiring a signature guarantee must utilize a New Technology Medallion stamp. For joint accounts, both signatures must be guaranteed. Please call the transfer agent at 1-800-869-1679 if you have questions regarding signature guarantees. At the discretion of the Fund, you may be required to furnish additional legal documents to insure proper authorization. The Fund will not make checks payable to any person other than the shareholder(s) of record.

Shares of the Fund may be redeemed by mail or telephone. You may receive redemption payments in the form of a check or federal wire transfer. A wire transfer fee of \$20 will be charged to defray custodial charges for redemptions paid by wire transfer. Any charges for wire redemptions will be deducted from your account by redemption of shares. If you redeem your shares through a brokerage firm or other intermediary, you may be charged a fee by that institution.

REDEEMING BY MAIL:

You may redeem any part of your account in the Fund by mail at no charge. Your request, in proper form, should be addressed to:

Collaborative Investment Series Trust
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

TELEPHONE REDEMPTIONS:

You may redeem any part of your account in a Fund by calling the transfer agent at 1-800-869-1679. You must first complete the Optional Telephone Redemption and Exchange section of the investment application to institute this option. The Fund, the transfer agent and the custodian are not liable for following redemption instructions communicated by telephone to the extent that they reasonably believe the telephone instructions to be genuine. However, if they do not employ reasonable procedures to confirm that telephone instructions are genuine, they may be liable for any losses due to unauthorized or fraudulent instructions. Procedures employed may include recording telephone instructions and requiring a form of personal identification from the caller.

The Fund may terminate the telephone redemption procedures at any time. During periods of extreme market activity it is possible that shareholders may encounter some difficulty in telephoning the Fund, although neither the Fund nor the transfer agent has ever experienced difficulties in receiving and responding to telephone requests for redemptions or exchanges in a timely fashion. If you are unable to reach the Fund by telephone, you may request a redemption or exchange by mail.

REDEMPTIONS IN KIND:

The Fund reserves the right to honor requests, in regular and stressed market conditions, for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") on the amount of such a request that is large enough to affect operations (that is, on the amount of the request that is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). In-kind redemptions of Fund shares will be redeemed pro rata to the extent that doing so is reasonable and in the best interests of the Fund and its shareholders. The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. A shareholder may incur transaction expenses in converting these securities to cash.

ADDITIONAL REDEMPTION INFORMATION:

If you are not certain of the redemption requirements, please call the transfer agent at 1-800-869-1679. Redemptions specifying a certain date or share price cannot be accepted and will be returned. The Fund typically expects that it will take up to 5 days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of fund shares, any lines of credit and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. You may be assessed a fee if a Fund incurs bank charges because you request that the Fund re-issue a redemption check. Also, when the NYSE is closed (or when trading is restricted) for any reason other than its customary weekend or holiday closing or under any emergency circumstances, as determined by the Securities and Exchange Commission ("SEC"), the Fund may suspend redemptions or postpone payment dates.

Low Balances: Because the Fund incurs certain fixed costs in maintaining shareholder accounts, the Fund may require that you redeem all of your shares in the Fund upon 30 days written notice if the value of your shares in the Fund is less than \$1,000 due to redemption, or such other minimum amount as the Fund may determine from time to time. You may increase the value of your shares in the Fund to the minimum amount within the 30-day period. All shares of the Fund also are subject to involuntary redemption if the Board of Trustees determines to liquidate the Fund. An involuntary redemption will create a capital gain or a capital loss, which may have tax consequences to you and about which you should consult your tax adviser.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies,

increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund discourages excessive short-term trading in Fund shares and does not intend to accommodate such trading activity by investors. The Fund considers excessive short-term trading to be any pattern of frequent purchases and redemptions of the Fund's shares by an investor or group of investors, acting in concert, that could interfere with the efficient management of the Fund's portfolio or result in increased brokerage and administrative costs. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's market timing trading policy;
- Rejecting or limiting specific purchase requests; and
- Rejecting purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's market timing trading policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchange purchases of the Fund's shares.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's market timing trading policy to their customers who invest indirectly in the Fund, the Fund is limited in their ability to monitor the trading activity or enforce the Fund's market timing trading policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's market timing trading policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's market timing trading policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying

participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

The Fund and the Adviser reserve the right to modify any redemption fee at any time. If there is a material change to the Fund's redemption fee, the Fund will notify you at least 60 days prior to the effective date of the change.

DIVIDENDS, DISTRIBUTIONS AND TAXES

DIVIDENDS AND DISTRIBUTIONS:

The Fund typically distributes substantially all of its net investment income in the form of dividends and taxable capital gains to its shareholders. The Fund intends to distribute net investment income dividends quarterly and long-term capital gains annually. These distributions are automatically reinvested in the Fund from which they are paid unless you request cash distributions on your application or through a written request to the Fund. Reinvested dividends and distributions receive the same tax treatment as those paid in cash. If you are interested in changing your election, you may call the Fund's transfer agent at 1-800-869-1679 or send a written notification to:

Collaborative Investment Series Trust
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

TAXES:

In general, selling shares of the Fund and receiving distributions (whether reinvested or taken in cash) are taxable events. Depending on the purchase price and the sale price, you may have a gain or a loss on any shares sold. Any tax liabilities generated by your transactions or by receiving distributions are your responsibility. The Fund anticipates that distributions will be primarily taxed as ordinary income. You may want to avoid making a substantial investment when the Fund is about to make a taxable distribution because you would be responsible for any taxes on the distribution regardless of how long you have owned your shares. The Fund may produce capital gains even if it does not have income to distribute and performance has been poor.

Early each year, the Fund will mail to you a statement setting forth the federal income tax information for all distributions made during the previous year. If you do not provide your taxpayer identification number, your account will be subject to backup withholding.

The tax considerations described in this section do not apply to tax-deferred accounts or other non-taxable entities. Because each investor's tax circumstances are unique, please consult with your tax adviser about your investment.

DISTRIBUTION OF SHARES

DISTRIBUTOR:

Arbor Court Capital, LLC ("Arbor Court"), 8000 Towne Centre Drive, Suite 400, Broadview Heights, Ohio 44147 is the distributor for the shares of the Fund. Arbor Court is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

DISTRIBUTION FEES:

The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plan (the "Plan"), pursuant to Rule 12b-1 of the 1940 Act, which allows the Fund to pay the Fund's distributor an annual fee for distribution and shareholder servicing expenses of up to 0.25% of the Fund's average daily net assets attributable to Class A shares.

The Fund's distributor and other entities are paid pursuant to the Plan, for distribution and shareholder servicing provided and the expenses borne by the distributor and others in the distribution of Fund shares., including the payment of commissions for sales of shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses, printing and distribution of prospectuses and shareholder reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by FINRA due to the reoccurring nature of distribution (12b-1) fees.

ADDITIONAL COMPENSATION TO FINANCIAL INTERMEDIARIES:

The Fund's distributor, its affiliates, and the Adviser may each, at its own expense and out of its own legitimate profits, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the 12b-1 Fees and any sales charge that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as a expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders.

HOUSEHOLDING:

To reduce expenses, we mail only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-800-869-1679 on days the Fund is open for business or contact your financial institution. We will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

Because the Fund has only recently commenced investment operations, no financial highlights are available for the Fund at this time. In the future, financial highlights will be presented in this section of the Prospectus

PRIVACY NOTICE**COLLABORATIVE INVESTMENT SERIES TRUST**

FACTS	WHAT DOES THE COLLABORATIVE INVESTMENT SERIES TRUST DO WITH YOUR PERSONAL INFORMATION?	
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing.
